

CORRECT SETUP AND USE OF LADDER LEVELLER

Warning: the user must read and follow all safety instructions.

1. All instructions and labels must be read and understood before use.
2. Inspect ladder and ladder leveller before each use for any damage or missing parts.
3. Do not use ladder or ladder leveller if either are damaged in any way or are missing any parts.
4. Be sure that ladder and ladder leveller are always set on solid footing.
5. Be certain that the ladder stiles are vertical and the rungs are horizontal before each use.
6. User must not place any object under the ladder or ladder leveller to gain additional height.
7. Never adjust ladder or ladder leveller while in use.
8. Electricity kills, always look up when handling ladder.
9. This leveller will support the same load rating as the ladder you have attached the leveller too.
10. Always check that the ladder and ladder leveller are free from foreign material before each use.
11. Always use the ladder to the manufacturer's and any local or national workplace health and safety guidelines.
